

SISTERLOVE, INC

WHO WE ARE

TOOLKIT

Here you will find info about our herstory, important facts, and downloadable resources you can use for your campaign

OUR MISSION

SisterLove Inc. is on a mission to eradicate the adverse impact of HIV/AIDS and other reproductive justice health challenges impacting women and their families through education, prevention, support and human rights advocacy in the United States and around the world.

OUR VISION

We envision a world in which we can all live in human dignity with equal protections regardless of illness, disability, race, sex, class, sexual or gender identity or other cultural, social, political, economic or geographic distinctions.

OUR TAGLINE

"Healthy Loving is Healthy Living"

OUR HERSTORY

SisterLove, Inc., was founded in July of 1989. We began as a volunteer group of women interested in educating Atlanta, and especially communities of women, about HIV prevention, self-help and safer sex techniques.

In 1987, the Women's AIDS Prevention Project (WAPP) was formed in part because of the barriers that kept women out of the forefront of HIV/AIDS education and treatment.

In 1989, the lack of support for WAPP inspired Dázon Dixon Diallo to found SisterLove Women's AIDS Project with the help of WAPP's women of color advisory board. Three years later, in 1992, the organization's name was officially changed to SisterLove, Incorporated.
